The criteria for a street tree and canopy tree in Policy Resolution 19-2 was revised at the Canopy BoD Meeting on Thursday, August 15, 2019. Your new street and/or canopy tree must meet the following revised criteria:

- Height: 8' - 10' (measured from the ground up)
- Caliber: 2" at 12" above ground
- Canopy Spread: 4'
- FL #1 rated for better

If your tree does not meet the above criteria, you will receive a violation notice.

And as a reminder, once your tree has been removed you have 30 days for the tree to be replaced (paragraph 9.09 Canopy's Declaration).
